

Master Scuba Diver Certification

This is a **highly coveted** certification - also referred to as “**The Black Belt of Diving**”

- and is open to anyone who wants to try a variety of dives in order to obtain a **well-rounded education** of the sport.

Becoming a Master Scuba Diver involves taking the Advanced Open Water, Rescue Diver, and at least **5 Specialty Courses**. This rating will let all other divers know that you are **very well trained** in a variety of areas. You will also most-likely be one of the **most experienced divers** whenever you travel!

The **Master Scuba Diver** certification is the **highest recreational diver rating** in the PADI program and denotes **superior achievement** and proficiency. It is perhaps the **most prestigious rating** for a scuba diver to attain. Developed primarily as a tool to educate those divers who do not take the professional route (i.e., Divemaster, Instructor, etc.), the Master Scuba Diver Program offers **training and experience** unparalleled in the industry.

TL Sea Diving is one of the foremost proponents of the Master Scuba Diver Program because **we teach so many Specialty Courses**. However, because many Instructors outside of TL Sea do not teach specialties, you may have never heard of this program.

The rating of Master Scuba Diver carries with it a great deal of respect and dignity and is open to all divers including 12-15 year olds, as they can be certified **Junior Master Scuba Divers**. Just give us a call for details how you can “**Master Your Sport**”!!
