

PADI Open Water Course

At **TL SEA DIVING**, we consider diver education to be extremely important, as the better one is trained, the **safer and more competent** diver they will be. We originally started our company for those students who needed a little more time and care; we didn't want to be restricted providing it to help them **become successful** and realize their potential. In short, we wanted to give all of our students **"TLC"**.

We instill not only **competence** in our friends, but **confidence**. We also lower the ratios in all our training courses in order to provide the **maximum degree of care** and control to ensure **safety and fun**. We want our students to continue to dive, succeed, and enjoy one of the most fantastic and relaxing sports on the planet. We know that if you get into this sport, it will undoubtedly, **"Change Your Life"!**

FREE Drysuit Offer!

As **comfort and relaxation** are synonymous with diving, we also offer all students the option of using a **DUI Drysuit & comfortable, thermal "jammies"** for all pool and open water training. The student is assigned their own Divemaster or Instructor for all water training in order to show them how to properly use the drysuit. The additional charge of \$100 ensures they will be diving in the **best drysuit in the world** and will be warm. We feel it's important to train all of our divers in a way that benefits learning; this does just that! Should the student elect to purchase a DUI within 90 days of course completion, the **\$100 is deducted from the purchase price**. It's like using a **drysuit for FREE!** This program has been extremely popular, and we encourage everyone to do this for comfort and peace of mind.

Training Options

Two Week Open Water Course

Conducted during 3 nights each week over a 2 week period with four open water training dives on the final weekend. This course offers very thorough, detailed training and includes 3 academic sessions, 3 pool dives, and 4 open water dives. A great deal of time is spent viewing videos, conducting classroom discussions and pool skill development. This course is ideal for anyone, particularly those who desire more evenings of classroom and pool dives.

Semi-Private Weekend Open Water Course

Conducted over 2 weekends, this option offers training without sacrificing your weeknights. We conduct one classroom session during the first Saturday and all pool dives on the first Sunday. The next weekend is reserved for your open water dives – 2 each on both Saturday and Sunday and then you're certified! This course is for those who are busy during the week and would prefer to have expedited training.

This course is designed for those who are busy during the week and would prefer to have expedited training. Semi-Private means we limit enrollment so we can devote the maximum time and energy to ensure you are well-trained and safe despite the accelerated schedule. We encourage anyone who enrolls in this option to be familiar and prepared with their classroom materials.

E-Learning

PADI started this option to enable you to train anytime, 24/7, 365 and avoid the formal classroom, altogether. As an "E-learner" you will click the link below and go to PADI's website to view all videos and updated information in order to complete all knowledge segments, quizzes & exams – all on your own schedule, anytime you desire! Once you've finished these, print out the required documents and bring them to the Dive Center. We'll run you through a simple, one-page assessment and you'll be on our way to your pool dives. This option is designed to give you more time in the pool, where you will learn the most!

Warm Water Certification Course

This option includes all academic sessions and pool dives with one twist: we travel to a beautiful warm water destination to complete your training! This option has become very popular, particularly since TL Sea travels to such incredible tropical destinations! You end up doing your open water dives in the "giant pool" of the warm ocean in addition to being on one of our amazing adventures and enjoying all of the fun top-side!

You begin by enrolling in one of our OPEN WATER COURSE options to complete your classroom and pool training. Then, we're off to sand, sun and fun! You will complete your Open Water Dives at a fantastic warm water location! This course has been successful for those who intend on diving only in warm water or who are planning a trip, but don't want to waste their vacation studying or taking class. While we'll continue

to work on getting you in the water here in the Northwest, you have another option for becoming a diver!

Women Only Open Water Course

TL SEA has finally done it! We've opened up a class for WOMEN ONLY. This OPEN WATER COURSE is exclusively for women who have always wanted to learn to scuba dive, without having any men around (especially in the POOL)!

Our team of female Instructors, Assistants and Divemasters will create a learning environment that is safe, comfortable and fun! Conducted in a semi-private venue, this two-week experience will enable you to train at your own pace with Instructors who truly understand special needs and concerns.

Our Women Only Course offers the same equipment and rental packages as our other Open Water Courses, but with a distinct level of care, professionalism and privacy one would expect to receive. We are certain you will be pleased with the high degree of personal attention we will give you!

Drysuits are also available for this course to ensure you will be warm & comfortable - offering you the most positive experience possible!

Since TL SEA is the only diving company in the area to offer such a wonderful opportunity, now is your chance to finally get your open water certification and experience the underwater world!

Private Open Water Course

This course is **designed exclusively around your schedule**, offering the **highest degree** of personal care and attention. For the busy person with a desire to dive, no longer shall you be restricted to every one else's schedule – we **cater to when you are available!** While specific progress must be made during the training sessions, the individual attention provided the Student in this training environment remains unparalleled; you learn at your own pace while developing a sense of **comfort and mastery** with each skill presented.

Our Private Open Water Course includes absolutely everything you need to complete your training in **first-class** fashion. Either CD-ROM or E-Learning may be applied toward your classroom material package which also includes the Recreational Dive Planner (Table Version), logbook and, once the course is completed, a **PADI Open Water Certification**.

As this is such a specialized course, we also include our **Platinum Equipment Rental** Package which features **training and use of a Drysuit** (with undergarments) for all pool and Open Water Dives.

Should you have others who are also interested in our Private Course option, you are welcome to take

the course together, providing it is your decision as we don't want to detract from your experience.

We know you will appreciate the **professionalism and comprehensive training** you will receive from our Staff.

Please contact the Dive Center for further details or to schedule training.
